1. The first of these is the  
fact that the population of  
the United States is increasing  
at a rapid rate. This is due  
to a number of causes, including  
immigration and a high birth  
rate. The result is that the  
country is becoming more and  
more crowded, and this has  
led to a number of problems,  
including a shortage of land  
and a shortage of water.
